BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.The Department of Homeland Securitys (DHS) Federal Protective Service (FPS) is not assessing risks at federal facilities in a manner consistent with standards such as the National Infrastructure Protection Plans (NIPP) risk management framework, as FPS originally planned. Instead of conducting risk assessments, since September 2011, FPSs inspectors have collected information, such as the location, purpose, agency contacts, and current countermeasures (e. g. , perimeter security, access controls, and closed-circuit television systems). This information notwithstanding, FPS has a backlog of federal facilities that have not been assessed for several years. According to FPSs data, more than 5, 000 facilities were to be assessed in fiscal years 2010 through 2012. However, GAO was unable to determine the extent of FPSs facility security assessment (FSA) backlog because the data were unreliable. Multiple agencies have expended resources to conduct risk assessments, even though the agencies also already pay FPS for this service. FPS received 236 million in basic security fees from agencies to conduct FSAs and other security services in fiscal year 2011. Beyond not having a reliable tool for conducting assessments, FPS continues to lack reliable data, which has hampered the agencys ability to manage its FSA program. This item ships from La Vergne,TN. Paperback.
