

Polymer physics experiments

Filesize: 9.26 MB

Reviews

Merely no phrases to describe. It really is rally intriguing throgh reading time. I am happy to tell you that this is basically the greatest book i have go through in my own lifestyle and might be he greatest book for ever.

(Kattie Wunsch)

POLYMER PHYSICS EXPERIMENTS

DOWNLOAD

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 184 Publisher: Chemical Industry Press Pub. Date :2004-8-1. College of Polymer Science and Engineering Series teaching materials. Contents: The first unit of the polymer solution properties of experimental polymer samples purified by repeated precipitation experiments two gas permeability meter (VPO) determined number-average molecular weight of the polymer osmotic pressure experiment 3 Determination of polymer molecular weight and viscosity method Huggins parameter Experiment 4 determination of viscosity-average molecular weight of the polymer solution viscosity experiment five polymer chain determined without interference from the mean-square end of the experiment six light scattering method for the determination of polymer molecular weight and molecular size of polymer precipitation classification experiment seven GPC experiment eight Determination of polymer molecular weight and molecular weight distribution of the second unit of the polymer structure analysis experiments nine polymer density gradient tube method for the determination of the density experiment ten dilatometer method for the determination of kinetic parameters of polymer crystallization experiments eleven optical microscopy observation of polymer The crystalline form of experimental determination of twelve optical path difference of birefringent polymer fibers experimental thirteen parameters observed by scanning electron microscopy structure of the polymer poly-state experiment fourteen small-angle laser light scattering of polymer spherulites observed X-ray experiment fifteen diffraction analysis of crystal structure of the polymer experimental sixteen-infrared spectroscopy identify the structural features of polymer swelling experiments seventeen compression method for the determination of polymer cross-linking of polymer mechanical properties of the third unit test eighteen polymer temperature - deformation Curve of experimental nineteen polymer temperature - deformation and differential thermal analysis curves of the simultaneous determination of experimental twenty polymer elongation at break and tensile strength determination experiments twenty-one Determination of flexural...
