AUTHORHOUSE, United States, 2004. Paperback. Book Condition: New. 223 x 147 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this age of technology, one need not depend on a face-to-face meeting to get to know others. There is no need to hang out at singles bars. There is no need to go through embarrassment when well-meaning friends and relatives introduce you to a potential suitor but things do not work out. There is the virtual world of meeting people! Those who are part of the global village need no introduction to e-mailing, chatting in chatrooms and sending instant messages. They do this with Net-users from all over the world. Some may be people they know. Very often, they may be communicating with people whom they are not familiar with. Thus they have been able to widen their scope of friends and acquaintances, and take these relationships formed in cyberspace to different levels. There are many others, however, who are not familiar with the virtual world of friendship and romance. Are you one of them? If you have an interest in this communicative venture, then Secrets to a Successful Online Romance will provide you with all the relevant information on how you can turn that friendship into a romance. The book is written in an easy-to-read style and told from a female point of view. In it, you will be given a helping hand with the appropriate ingredients to spice up the virtual relationship. Check your present relationship and see where mistakes are being made. If you want to make the relationship work, take the necessary steps to overcome the stumbling blocks. If the other party does not want to carry on the romance, then you can always start again - meeting people on the Net, becoming friends...
