But there is one, a very delightful one, and to its charming lakes and glorious mountains many thousands of wearied people go every year, for rest and recreation. This playground is about one-third as large as the State of New York. Its name is Switzerland. It is one of the smallest and most mountainous countries of Europe. Many of its square miles stand on end in the form of mountains and glaciers. It boasts of the highest ranges of the Alps, some of the peaks being almost three miles high. Many of these lofty peaks are covered with snow, winter and summer. Nearly two-thirds of Switzerland consists of lakes and mountains, which leave little room for large ranches and farms. The farms are so very small that we could almost fold them up and put them in our pockets. Only one-ninth of the land is tilled, and there is a population of 3,119,635 to be...
