INTERACTION BETWEEN THE LAND SURFACE AND ATMOSPHERE

VDM Verlag Apr 2009, 2009. Taschenbuch. Book Condition: Neu. 219x149x23 mm. Neuware - New insight is obtained into the structure of the convective atmospheric boundary layer (CBL) over surface heat flux variation on a scale of the order of 10 km. Aircraft data collected during the International H2O Project (IHOP_2002) and large eddy simulation (LES) are used. The new insight includes the followings: First, the CBL changes from a quasi-stationary state to a non-stationary state when forced by a high-amplitude...

Reviews

If you need to adding benefit, a must buy book. It can be writter in straightforward words and phrases and never difficult to understand. I realized this ebook from my dad and i advised this ebook to learn.
