Brand New Book ***** Print on Demand *****.Excerpt from Scandinavia of the Scandinavians There are unmistakable indications in England and America of increasing interest in the contemporary progress of the Scandinavian peoples. These descendants of a once warlike race are devoting their untiring energies to experiments in the arts of peace. Although they number fewer than 11,000,000 souls the Scandinavians have not failed to furnish the modern world with their quota of successful plans for social betterment, working-man s insurance, co-operative methods of farming, discoveries in physics, cunning inventions of mechanical devices, and important contributions to music, painting, poetry, and drama. The introductory chapter of this book is a brief review of the history of the three nations that constitute Scandinavia - Denmark, Norway, and Sweden - setting forth their relations to one another. Knit by racial sympathies and a formerly common language, these three peoples have been drawn even closer together by the Great War now, December, 1914, raging close to their borders. Subsequent chapters treat of their life and thought at the present day. Incidents from earlier periods are only touched upon in order to give the necessary historical setting. Temporary sojourn among the hospitable and warmhearted people of each land, and intimate business and social relations with men of affairs, have resulted in the assembling of the facts and impressions contained in the following pages. Many have been my helpers and advisers. Their names, some of them, appear in the text. All are authorities on subjects bearing upon Scandinavia in the making.
