THE ESSENTIAL DICTIONARY OF ENVIRONMENTAL STUDIES

Readworthy Publications (P). Ltd., 2009. Paperback. Book Condition: New. The living and non-living things that we see around us make our environment. Land, water and air are the non-living components, while plants, animals, humans, germs, etc. are the living components. Every living component adjusts to the environment in which its existence starts and where it survives. Moreover, any change in components of the environment may cause discomfort and affect the normal life of the living components, which further affects the...
